FOR IMMEDIATE RELEASE

**PURIGEN98™ HIGH-PURITY NITROGEN TIRE INFLATION  
NOW OFFERED AT SELECT BEST BUY LOCATIONS**

**SUNRISE, Fla.** – (Oct. 22, 2008) – **Purigen98™** has announced its high-purity nitrogen tire inflation system is now being offered at more than 30 Best Buy stores in Las Vegas, Minneapolis-St. Paul, Seattle, Denver, Fargo, N.D., and Mexico. The product is earning a reputation as a helpful tool for increasing gas mileage and reducing carbon emissions.

Available at select Best Buy Geek Squad auto bays, the high-purity nitrogen in **Purigen98™** helps keep tires properly inflated longer than those filled with regular air. “Best Buy’s decision to carry our product demonstrates its commitment to providing customers with additional options to live a greener lifestyle and, at the same time, increase their vehicle capability and performance,” said Robin Pearl, president of N<sub>2</sub>Revolution.

“With Best Buy on board, ‘blue’ will definitely become the new ‘green’ as its customers sport **Purigen98™**’s blue tire caps and begin lessening their carbon imprint on Mother Earth by reducing fuel emissions and saving rubber trees from being harvested.”

Nitrogen tire inflation was first used by professional racers, pilots and even astronauts to enhance handling, stability and overall safety. Nitrogen molecules are more stable than those of oxygen so the gas does not leak through the walls of tires as quickly, helping maintain proper tire pressure.

Today, motorists use the product to help increase gas mileage. Currently, drivers can convert their car or truck tires to Purigen98™ for approximately \$40 at the select Best Buy stores. Motorists are also eligible to receive a **Purigen98™** Roadside Assistance Plan with their purchase at Best Buy. Locations can be found by visiting [www.purigen98.com](http://www.purigen98.com).

In addition to being available at more than 600 dealerships in 40 states and Canada, **PurigeN98™** has been endorsed by four-time NASCAR Sprint Cup Champion Jeff Gordon, who uses the product in his personal cars. Both the Mario Andretti Racing School and Jeff Gordon Racing School have entered into exclusive agreements with N<sub>2</sub>Revolution, Inc. to use **PurigeN98™** in the tires of their racing experience cars and two-time World Track Cycling Champion and Olympian Sarah Hammer inflates her bicycle tires with **PurigeN98™**.
